SAFETY DATA SHEET

SECTION 1: IDENTIFICATION OF THE SUBSTANCE AND OF THE COMPANY/UNDERTAKING

1.1. Product identifier:
DIETHYL CARBONATE

CAS number: 105-58-8
EC number: 203-311-1
REACH registration number: 01-2119943044-45-0001; complete registration.

1.2. Relevant identified uses of the substance and uses advised against:
Organic synthesis intermediate for industrial use.

1.3. Details of the supplier of the safety data sheet:
Manufacturer and distributor:
FRAMOCHM FRENCH-HUNGARIAN FINE CHEMICALS LTD.
3700 Kazincbarcika, Szervíz str. 5., PO Box 504
Telephone: +36 (48) 311-991
Fax: +36 (48) 512-162
E-mail: info@framochem.hu

1.3.1. Name of the responsible person: -
E-mail: info@framochem.hu

1.4. Emergency telephone number: Public Toxicological Health Service (ETTSZ)
1096 Budapest, Nagyvárad tér 2.
Tel.: 06 1 476 6464, 06 80 201 199 (0-24 h)

SECTION 2: HAZARDS IDENTIFICATION

2.1. Classification of the substance:
Classification according to Regulation 1272/2008/EC (CLP):
Flammable Liquids 3 – H226
Skin irritation 2 – H315
Eye irritation 2 – H319
Specific target organ toxicity (STOT) – single exposure 3 – H335

Warning H statements:
H226 – Flammable liquid and vapour.
H315 – Causes skin irritation.
H319 – Causes serious eye irritation.
H335 – May cause respiratory irritation.

2.2. Label elements:
IUPAC name: Diethyl carbonate
CAS number: 105-58-8
EC number: 203-311-1
WARNING

Warning H statements:
H226 – Flammable liquid and vapour.
H315 – Causes skin irritation.
H319 – Causes serious eye irritation.
H335 – May cause respiratory irritation.

Precautionary P statements:
P243 – Take precautionary measures against static discharge.
P273 – Avoid release to the environment.
P305 + P351 + P338 – IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
P403 + P233 – Store in a well-ventilated place. Keep container tightly closed.

2.3. Other hazards:
The substance does not meet the criteria for PBT or vPvB substances.
Information concerning specific hazards for human and environment: See Section 11.

SECTION 3: COMPOSITION/INFORMATION ON INGREDIENTS

3.1. Substances:
IUPAC name: Diethyl carbonate
CAS number: 105-58-8
EC number: 203-311-1
Formula: C₅H₁₀O₃
Molar weight: 118.13
Synonym: Carbonic acid, diethyl ester
Purity: > 99.9%

SECTION 4: FIRST AID MEASURES

4.1. Description of first aid measures:
GENERAL INFORMATION: Transport the injured person into hospital and show the label or this safety data sheet.
IN CASE OF INGESTION:
Measures:
- Obtain immediate medical attention and show him the label or this safety data sheet.

IN CASE OF INHALATION:
Measures:
- Take the victim into fresh air, loosen his clothes and let him rest.
- If the victim is unconscious and breathing, place him into recovery position.
- Obtain immediate medical attention and show him the label or this safety data sheet.

IN CASE OF SKIN CONTACT:
Measures:
- Immediately remove the contaminated clothes.
- Immediately wash the contaminated area with plenty of water and soap (for 15 minutes).
- If symptoms occur, obtain immediate medical attention and show him the label.

IN CASE OF EYE CONTACT:
Measures:
- In case of contact with eyes flush immediately with plenty of flowing water for 15 minutes holding eyelids apart (for at least 15 minutes).
- Obtain immediate medical attention and show him the label or this safety data sheet.

4.2. Most important symptoms and effects, both acute and delayed:
See section 11 for information on health effects and symptoms.
4.3. Indication of any immediate medical attention and special treatment needed:
INFORMATION TO THE PHYSICIAN: no special measures required.
Handling: no specific prescription.

SECTION 5: FIREFIGHTING MEASURES
5.1. **Appropriate extinguishing media:**

5.1.1. **Suitable extinguishing media:**
Carbon dioxide, dry powder, alcohol resistant foam.

5.1.2. **Unsuitable extinguishing media:**
Avoid the use of any other extinguishing media.

5.2. **Special hazards arising from the substance or mixture:**
Hazardous combustion products: smoke and other combustion products (CO2, CO). The inhalation of such combustion products can cause serious adverse effects on health!

5.3. **Advice for fire fighters**
Wear a self-contained respiratory device operating with overpressure and compressed air (self-rescue breathing apparatus) and appropriate full protective clothing and protective equipment which avoids contact of the product with skin, eyes and the inhalation of hazardous gases and smoke generated during the combustion.

**SECTION 6: ACCIDENTAL RELEASE MEASURES**

6.1. **Personal precautions, protective equipment and emergency procedures**

6.1.1. For non-emergency personnel:
Keep unprotected people away, allow only well trained experts wearing suitable protective clothing to abide in the field of accident.

6.1.2. For emergency responders:
Evacuate the unauthorized persons for the place of the accident.
Remove all ignition sources from the affected area.
Close the designated area.
Ensure adequate ventilation.

6.2. **Environmental precautions:**
Dispose of spillage and waste (product/packaging) in accordance with all applicable environmental laws. Do not allow to enter sewers/soil/surface or ground water. Notify the respective authorities in accordance with local law in the case of environmental pollution immediately.

6.3. **Methods and material for containment and cleaning up:**
Collect the spilled material with inert, non-combustible, mineral absorbent (sand, earth, perlite), then place into a suitable, closed, properly labelled chemical waste container till removal/disposal. During the collection, placement, disposal of the waste, wear appropriate individual protective equipment.

6.4. **Reference to other sections:**
For further and detailed information see section 8 and 13.

**SECTION 7: HANDLING AND STORAGE**

7.1. **Precautions for safe handling:**
Observe conventional hygiene precautions.
Avoid contact with skin, eyes and clothing, avoid inhalation of vapours.
Do not eat, drink and smoke during handling and in the workplace. Use adequate personal protective equipment (see section 8).
The contaminated clothes should be removed immediately.
After the handling of the product and before breaks or before eating wash your hands, after the work hours thorough washing (showering) is required.
Technical measures:
Ensure adequate ventilation / local extraction.
Precautions against fire and explosion:
The use/handling of the product must be far from heat and ignition sources, avoid the sparkling and use of open flame, avoid electrostatic charge.
Avoid the formation of flammable and explosive vapours, use spark and explosion proof equipment/tools during the handling.

7.2. **Conditions for safe storage, including any incompatibilities:**
Keep in original, closed and labelled container.
The place of storage has to be cool, properly ventilated and cleanable.
Store in cool and dry place.
Unauthorized persons must be kept away from the storage area.
Avoid spillage of the product.
Keep away from incompatible materials (e.g.: strong oxidants). The product must be stored in properly coated (lined with polyethylene) or stainless steel container in cool and dry (protected from humidity) and well ventilated place.
Keep away from heat and ignition sources.
Keep away from humidity, water and the moisture of the air.
Do not smoke in the place and the vicinity of the storage.
Follow all instructions on the label.
Incompatible materials: strong oxidizing agents.
Packaging material: Metal container lined with polyethylene, with inert material, polyethylene container, stainless steel container. It is forbidden to use other packaging material or packaging material made of other material.

7.3. Specific end uses:
No specific instructions available.

SECTION 8: EXPOSURE CONTROLS/PERSONAL PROTECTION

8.1. Control parameters:

Occupational exposure limit values:
The substance is not regulated with exposure limit value.

8.2. Exposure control:
In case of a hazardous material with no controlled concentration limit it is the employer’s duty to keep concentration levels down to a minimum achievable by existing scientific and technological means, where the hazardous substance poses no harm to workers.

8.2.1. Appropriate engineering controls:
In pursuance of work is proper foresight needed to avoid spilling onto clothes and floors and to avoid contact with eyes and skin.
Ensure adequate ventilation, especially in closed areas.
Do not eat or smoke during the processing.
Do not inhale the vapours.
Wash thoroughly after the work hours.
In the vicinity of the workplace safety shower and eye wash fountain has to be installed.

8.2.2. Individual protection measures, such as personal protective equipment:
1. Eye/face protection: use adequate protective goggles/ protective mask according to EN 166.
2. Skin protection:
   a. Hand protection: use adequate protective gloves according to EN 374.
   b. Other: use adequate acid resistant protective clothes according to EN ISO 6529.
3. Respiratory protection: use adequate respirator (for organic vapours) according to EN 136, 141.

8.2.3. Occupational exposure controls
no special measures required.

The requirements detailed in Section 8 assume skilled work under normal conditions and usage of the product for appropriate aims. If conditions differ from normal or work is carried out under extreme conditions an expert’s advice should be sought out before deciding upon further protective measures.
### SECTION 9: PHYSICAL AND CHEMICAL PROPERTIES

#### 9.1. Information on basic physical and chemical properties:

#### 9.2. Other information:

- Density (20 °C): 0.975 g/cm³
- Diethyl carbonate for reactive intermedier for synthesis, for pharmaceutical synthesis. Solvent of resins, oils, cellulose esters and nitrocellulose.
- The product hydrolises very slowly, while carbon dioxide and ethanol is formed.
- The vapours of the diethyl carbonate and ethanol can form explosive mixtures with air.
- Lower explosion limit concentration: 6.2 vol. %

### SECTION 10: STABILITY AND REACTIVITY

#### 10.1. Reactivity:

- At normal temperature and general conditions of work stable.

#### 10.2. Chemical stability:

- During the distillation done in normal pressure, no decomposition was experienced.

#### 10.3. Possibility of hazardous reactions:

- Reacts with strong oxidizing agents.

#### 10.4. Conditions to avoid:

- Contact with water.

#### 10.5. Incompatible materials:

- Strong oxidizing agents.

#### 10.6. Hazardous decomposition products:

- None known.

### SECTION 11: TOXICOLOGICAL INFORMATION

#### 11.1. Information on toxicological effects:

- Acute toxicity: none known.
- Skin corrosion/irritation: causes skin irritation.
- Serious eye damage/eye irritation: causes serious eye irritation.
Respiratory or skin sensitisation: none known.
Germ cell mutagenicity: none known.
Carcinogenicity: none known.
Reproductive toxicity: none known.
STOT-single exposure: may cause respiratory irritation.
STOT-repeated exposure: none known.
Aspiration hazard: none known.

11.1.1. For substances subject to registration, brief summaries of the information derived from the test conducted
No data available.

11.1.2. Relevant toxicological properties of the hazardous substances
Acute toxicity:
LD50 (oral, rat): 8500 mg/kg.

11.1.3. Information on likely routes of exposure:
Ingestion, inhalation, skin contact, eye contact.

11.1.4. Symptoms related to the physical, chemical and toxicological characteristics:
The product causes eye, skin and respiratory tract/mucous membrane irritation.

11.1.5. Delayed and immediate effects as well as chronic effects from short and long-term exposure:
Causes skin irritation.
Causes serious eye irritation.
May cause respiratory irritation.

11.1.6. Interactive effects:
No data available.

11.1.7. Absence of specific data:
No information.

11.1.8. Other information:
No data available.

SECTION 12: ECOLOGICAL INFORMATION

12.1. Toxicity:
No data available.

12.2. Persistence and degradability:
No data available.

12.3. Bioaccumulation potential:
No data available.

12.4. Mobility in soil:
No data available.

12.5. Results of PBT and vPvB assessment:
This substance does not meet the criteria of PBT or vPvB.

12.6. Other adverse effects:
No data available.

SECTION 13: DISPOSAL CONSIDERATIONS

13.1. Waste treatment methods:
Disposal according to the local regulations.

13.1.1. Information regarding the disposal of the product:
Product: The product can be incinerated in a chemical incinerator equipped with an afterburner and scrubber. Do not enter the waste material into soil, drains and watercourses.
European Waste Code:
No appropriate EWC code can be given for the substance, since the identification of the proper code can be done with the method of use defined by the user of the substance. The EWC codes indicated below are only recommendations, but they may have to be changed due to special circumstances, in such cases new classification may be needed.

13.1.2. Information regarding the disposal of the packaging:
Packaging: The packaging material contaminated with hazardous waste should be disposed according to the local regulations. The emptied packaging material should be collected and disposed according to the pertinent regulation.

13.1.3. Physical/chemical properties that may affect waste treatment options shall be specified:
None known.

13.1.4. Sewage disposal:
None known.
13.1.5. Special precautions for any recommended waste treatment:
No data available.

SECTION 14: TRANSPORT INFORMATION

14.1. **UN Number:**
2366.

14.2. **UN proper shipping name:**
ADR/RID: DIETHYL CARBONATE
IMDG: DIETHYL CARBONATE
IATA: Diethyl carbonate

14.3. **Transport hazard class(es):**
ADR/RID: 3.F1
IMDG: 3
IATA: 3

14.4. **Packaging group**
ADR/RID: III
IMDG: III
IATA: III

14.5. **Environmental hazard**
ADR/RID: no
IMDG: no
IATA: no

14.6. **Special precautions for user:**
None.

14.7. **Transport in bulk according to Annex II of MARPOL and the IBC Code:**
Not applicable.

SECTION 15: REGULATORY INFORMATION

15.1. **Safety, health and environmental regulations/legislation specific for the substance or mixture:**

1. **REACH international regulation:**

2. **CLP international regulation:**

15.2. **Chemical safety assessment:** no information available.

SECTION 16: OTHER INFORMATION

Information regarding the revision of the safety data sheet:
The safety data sheet has been revised according to Regulation 830/2015/EU (Section 1-16). There is no change in the hazard classification compared to the previous version.

Full text of the abbreviations in the safety data sheet:
DNEL: Derived no effect level. PNEC: Predicted no effect concentration. CMR effects: carcinogenicity, mutagenicity and toxicity for reproduction. PBT: Persistent, bioaccumulative and toxic. vPvB: very persistent and very bioaccumulative. n.d.: not defined. n.a.: not applicable. VOC: volatile organic compound

Data sources:
previous version of the safety data sheet (02.10.2014., version: 3)
Relevant H-Phrases (number and full text) of Section 2:

H226 – Flammable liquid and vapour.
H315 – Causes skin irritation.
H319 – Causes serious eye irritation.
H335 – May cause respiratory irritation.

Training instructions: no data

This safety data sheet had been prepared on the basis of information provided by the manufacturer/supplier of the product and meets the requirements of the relevant regulations. The information, data and recommendations contained herein are provided in good faith, obtained from reliable sources and believed to be true and accurate as of the date issued. During the use and handling of the product – within given circumstances – additional, hereby non-indicated considerations may be required. Users are cautioned to determine the appropriateness and applicability of the above information to their particular circumstances and purposes and assume all risk associated with the use of this product. It is the responsibility of the user to fully comply with local, national and international regulations concerning the use of this product.
